Lab Service Overview

Your evaluation begins with a comprehensive laboratory analysis of your blood. This service has two components, the professional medical analysis performed by your medical provider, and the blood draw/lab processing performed by our laboratory partner, LabCorp. Using the results of that analysis, we can formulate an individual treatment plan to help you achieve your goals.

Payment Agreement

I agree to pay \$225 to cover lab processing and analysis. Nothing will be billed to insurance and no portion of this amount will be refunded to you. I have also been made aware that I will have the option to utilize insurance for continuing lab draws beyond my baseline lab draw.
